ACT I . ORIGIN .

Looking around for something more is instinctive. People go to great lengths in an attempt to discover and transform themselves. Traveling the world, traveling to space. And it is really enriching - and revealing - to look for references everywhere. But there are times when we need to remember what's essential. Put down roots, get our heads out of the clouds, put our feet on the ground. Look at ourselves.

This exercise of returning to our origins, to what is true and natural, retrieving the raw material in its essence, leads us to authenticity. It is by living the now, contemplating the instant and reconnecting with our deepest, most essential values, that we nurture who we are.

ACT II . TERRALMA .

Terralma is everything that the pursuit of essence has revealed to us.
An invitation to preserve roots, to inhabit balance.

In solid earthy tones
with cool nuances that
conjure warm memories,
Terralma is a reconnection
with our own history.

With a natural touch
that evokes
cozy spaces,
Terralma is a nest.

Refuge.
Where you can just be. Present.

A matte surface that connects
the volumetry of joints and the
texture of mortar in the same
color chart, to personalize
and create true havens.

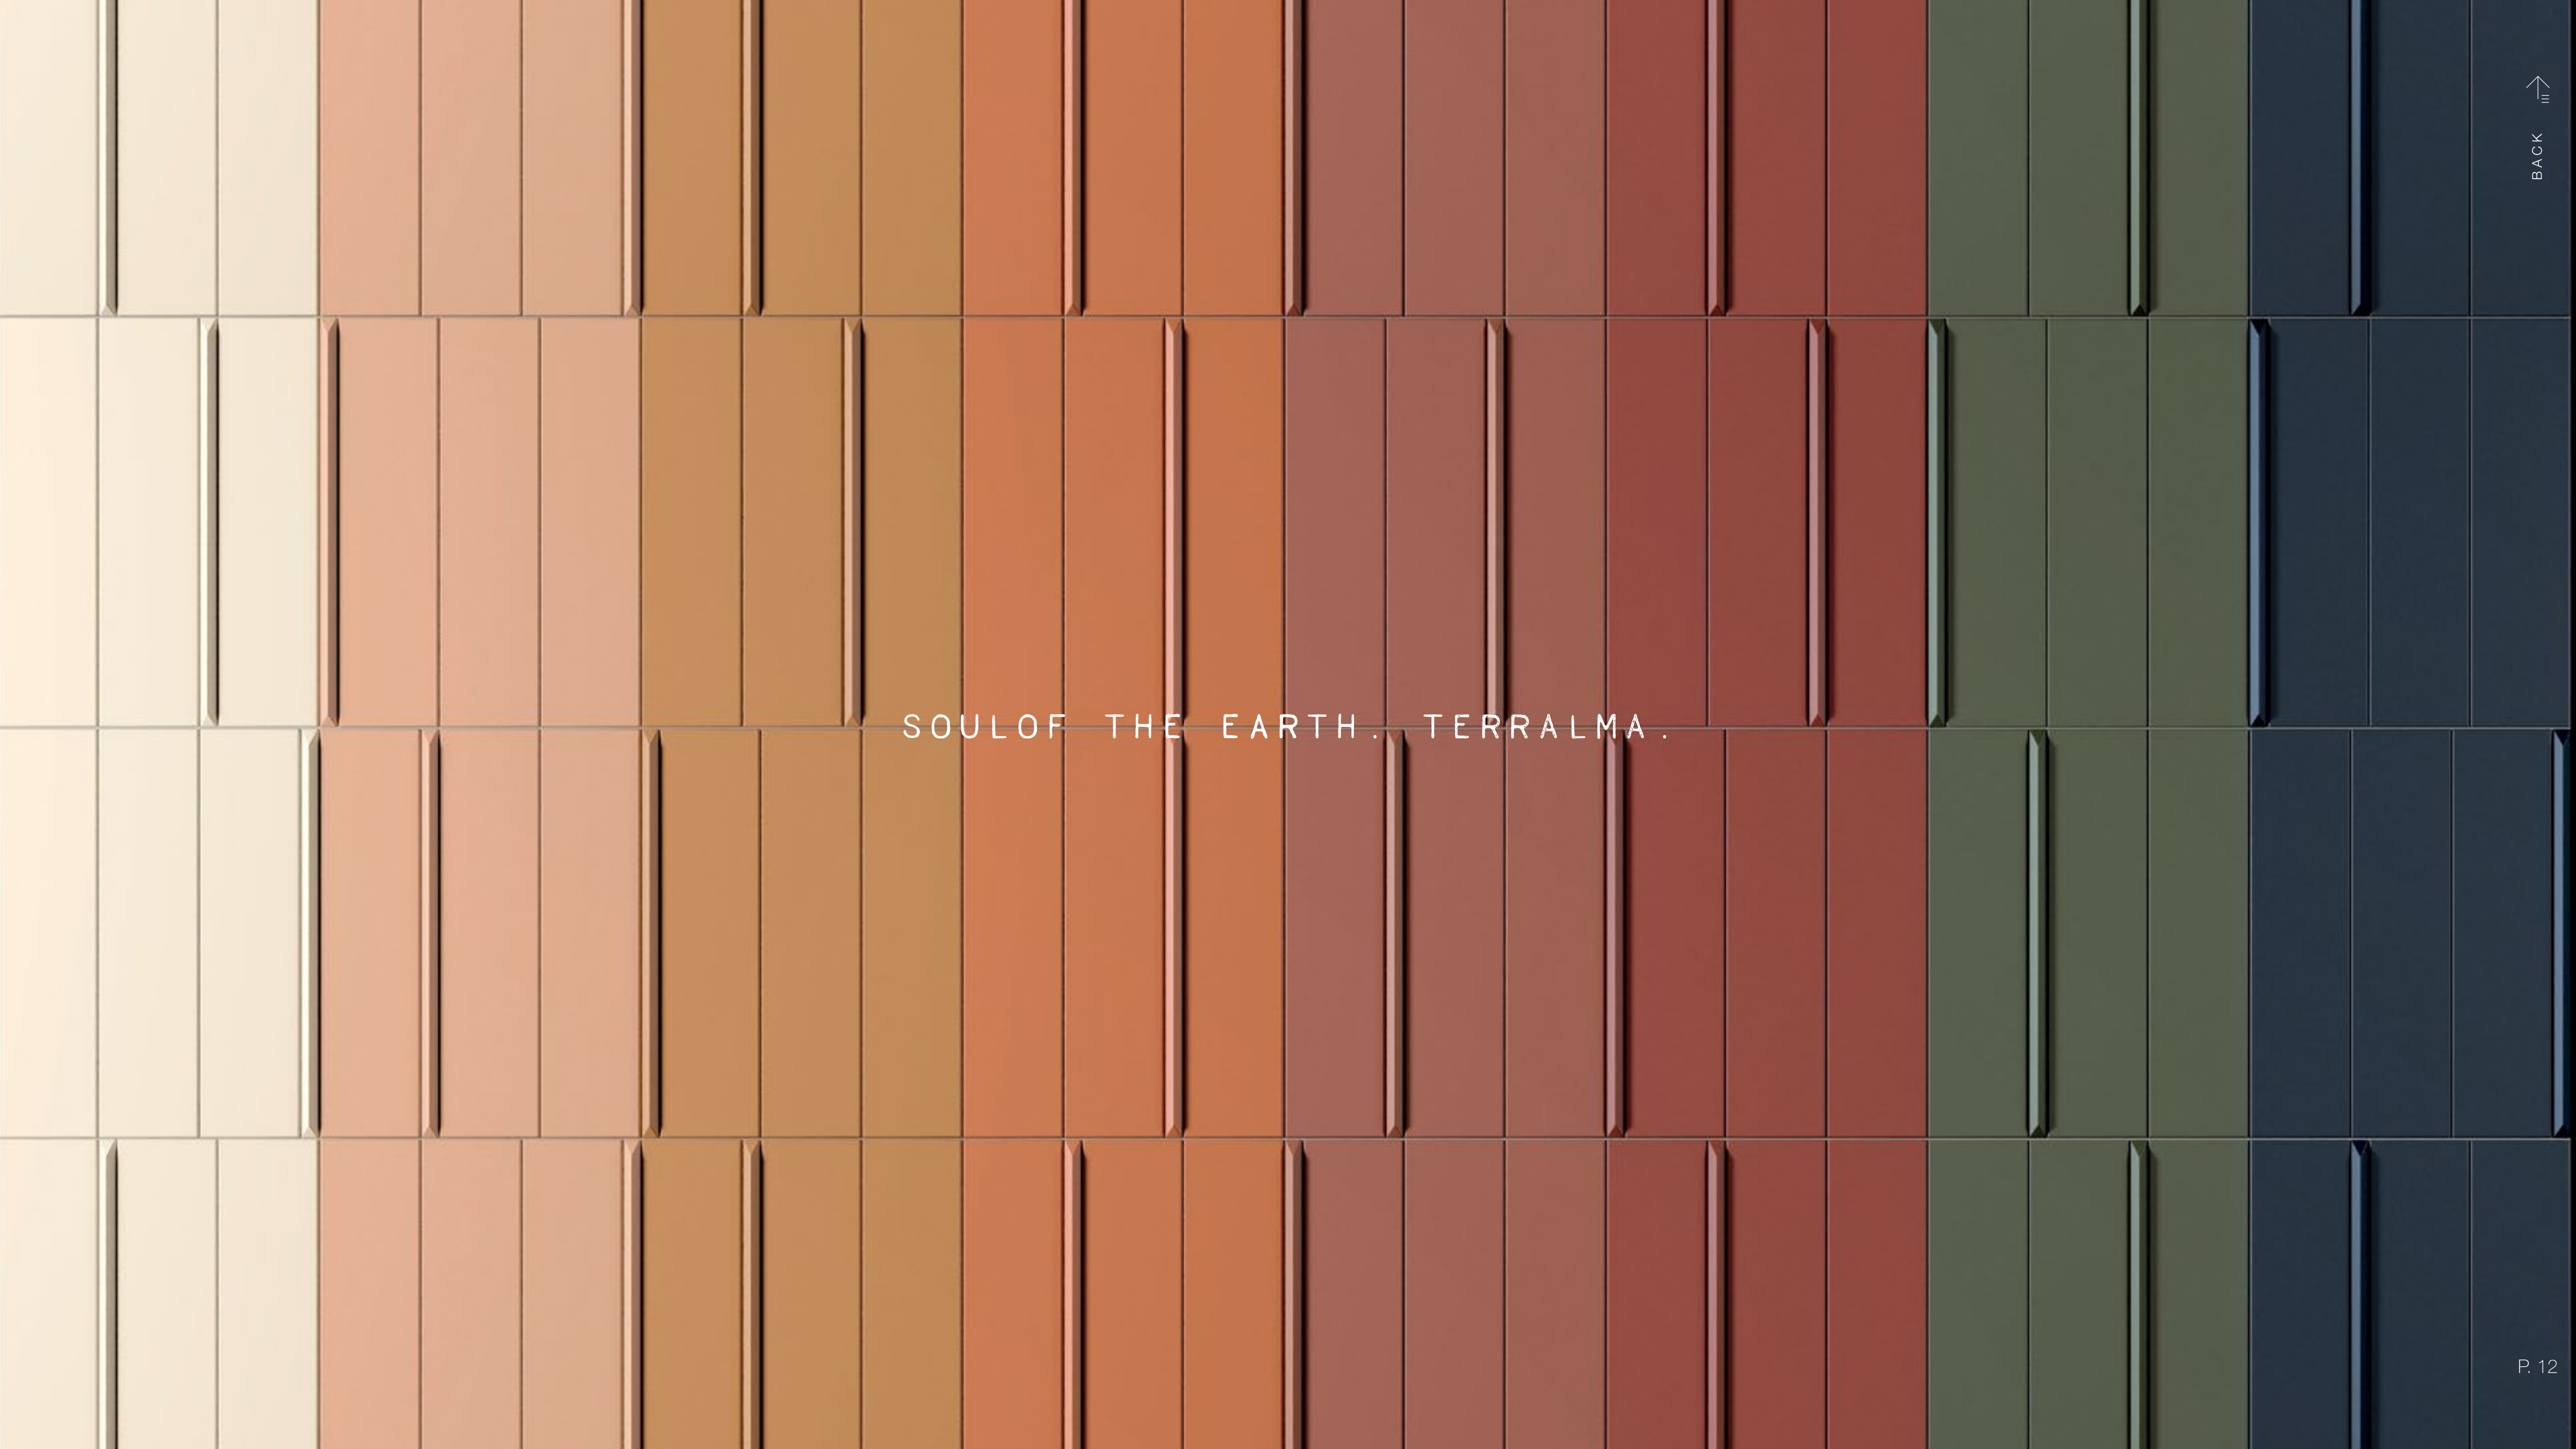

Where you simply are.

Earth and soul.

Figure and ground.

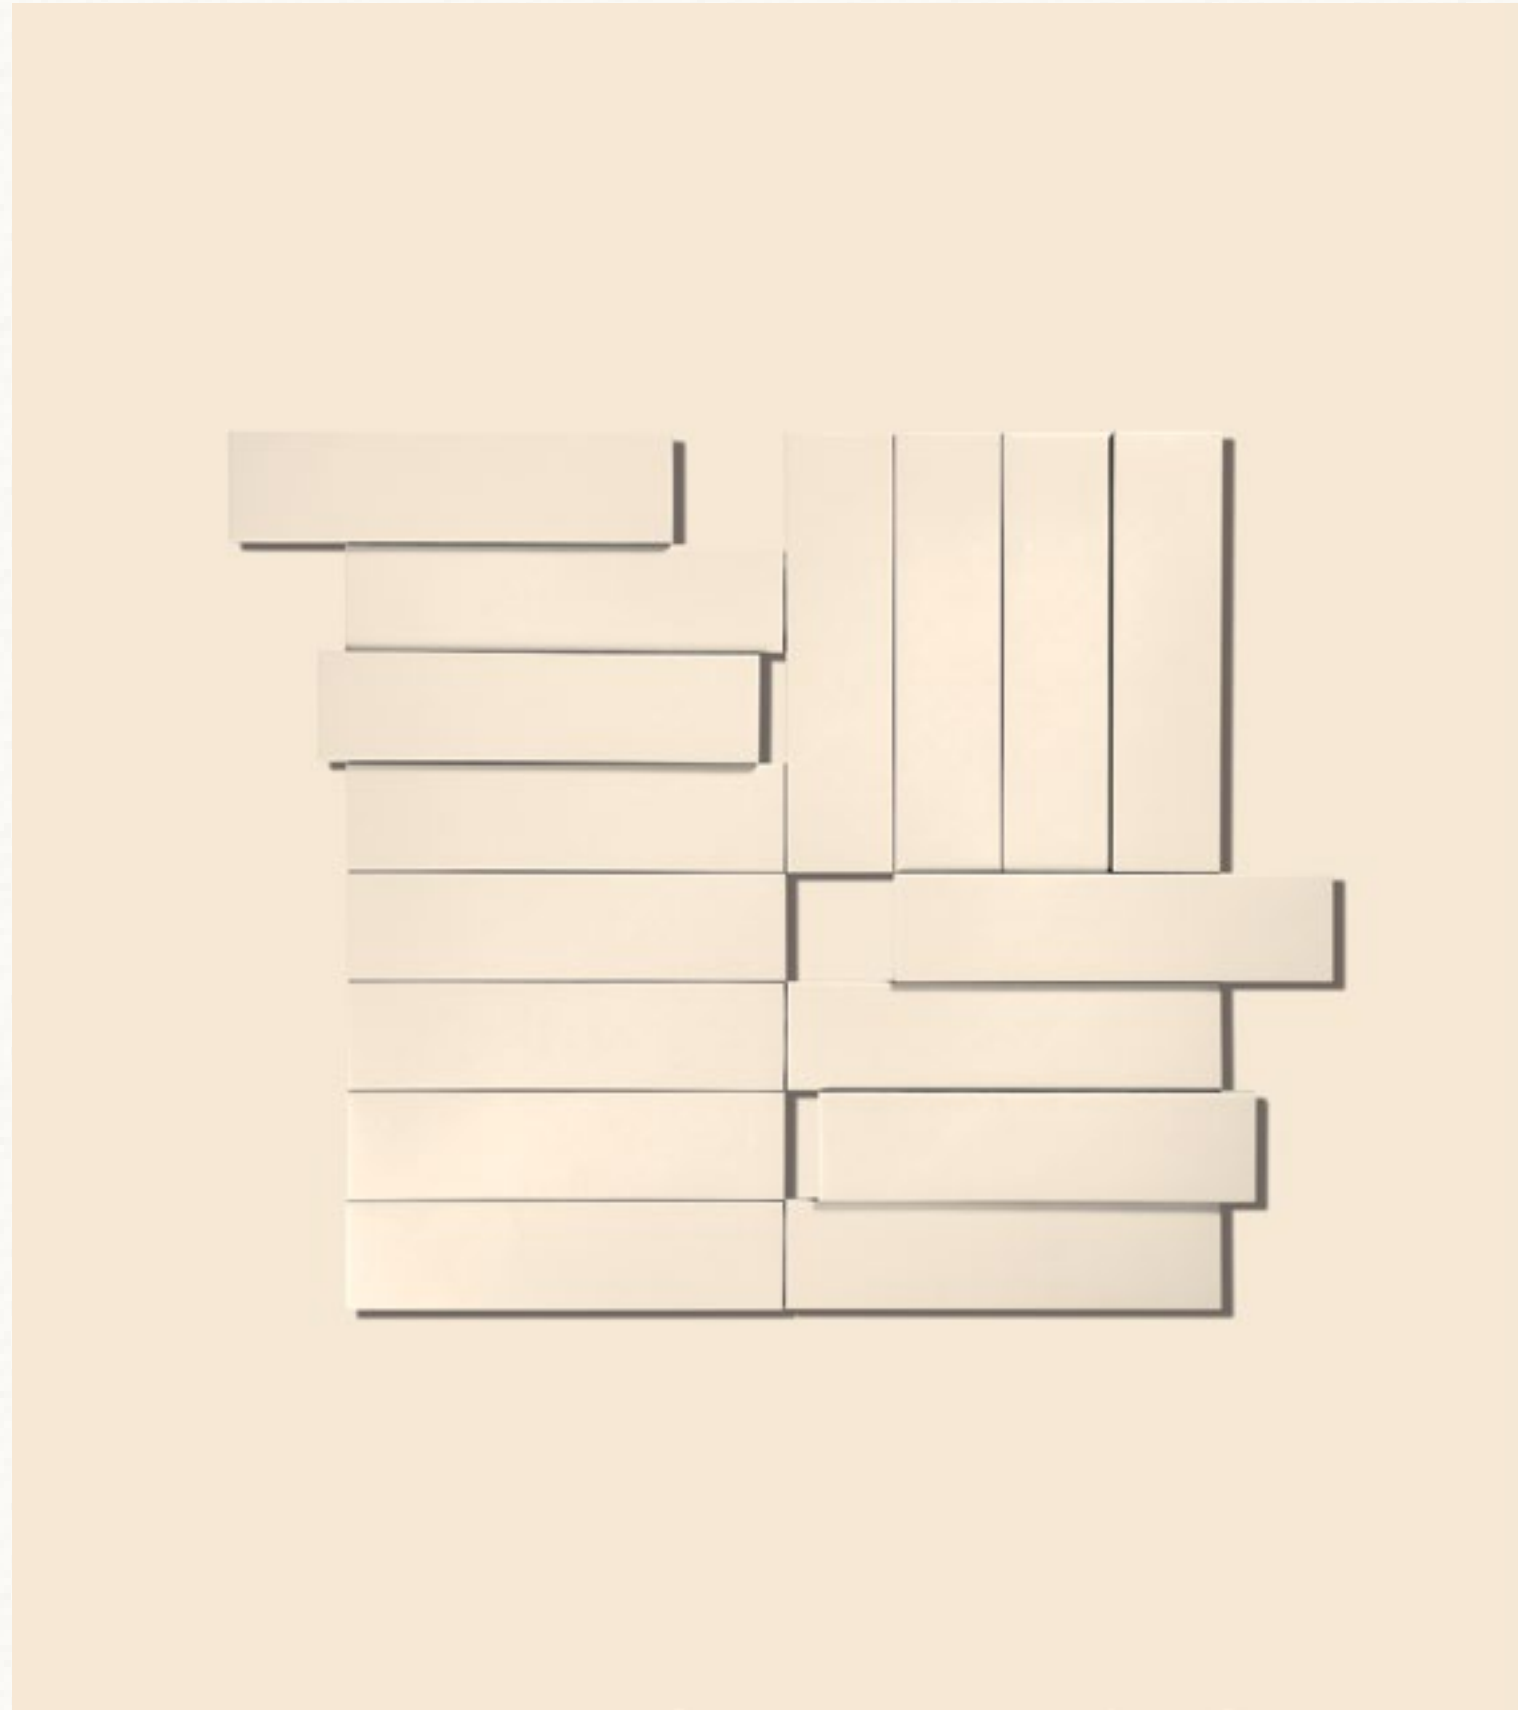

Product and connection.

Tradition and innovation.

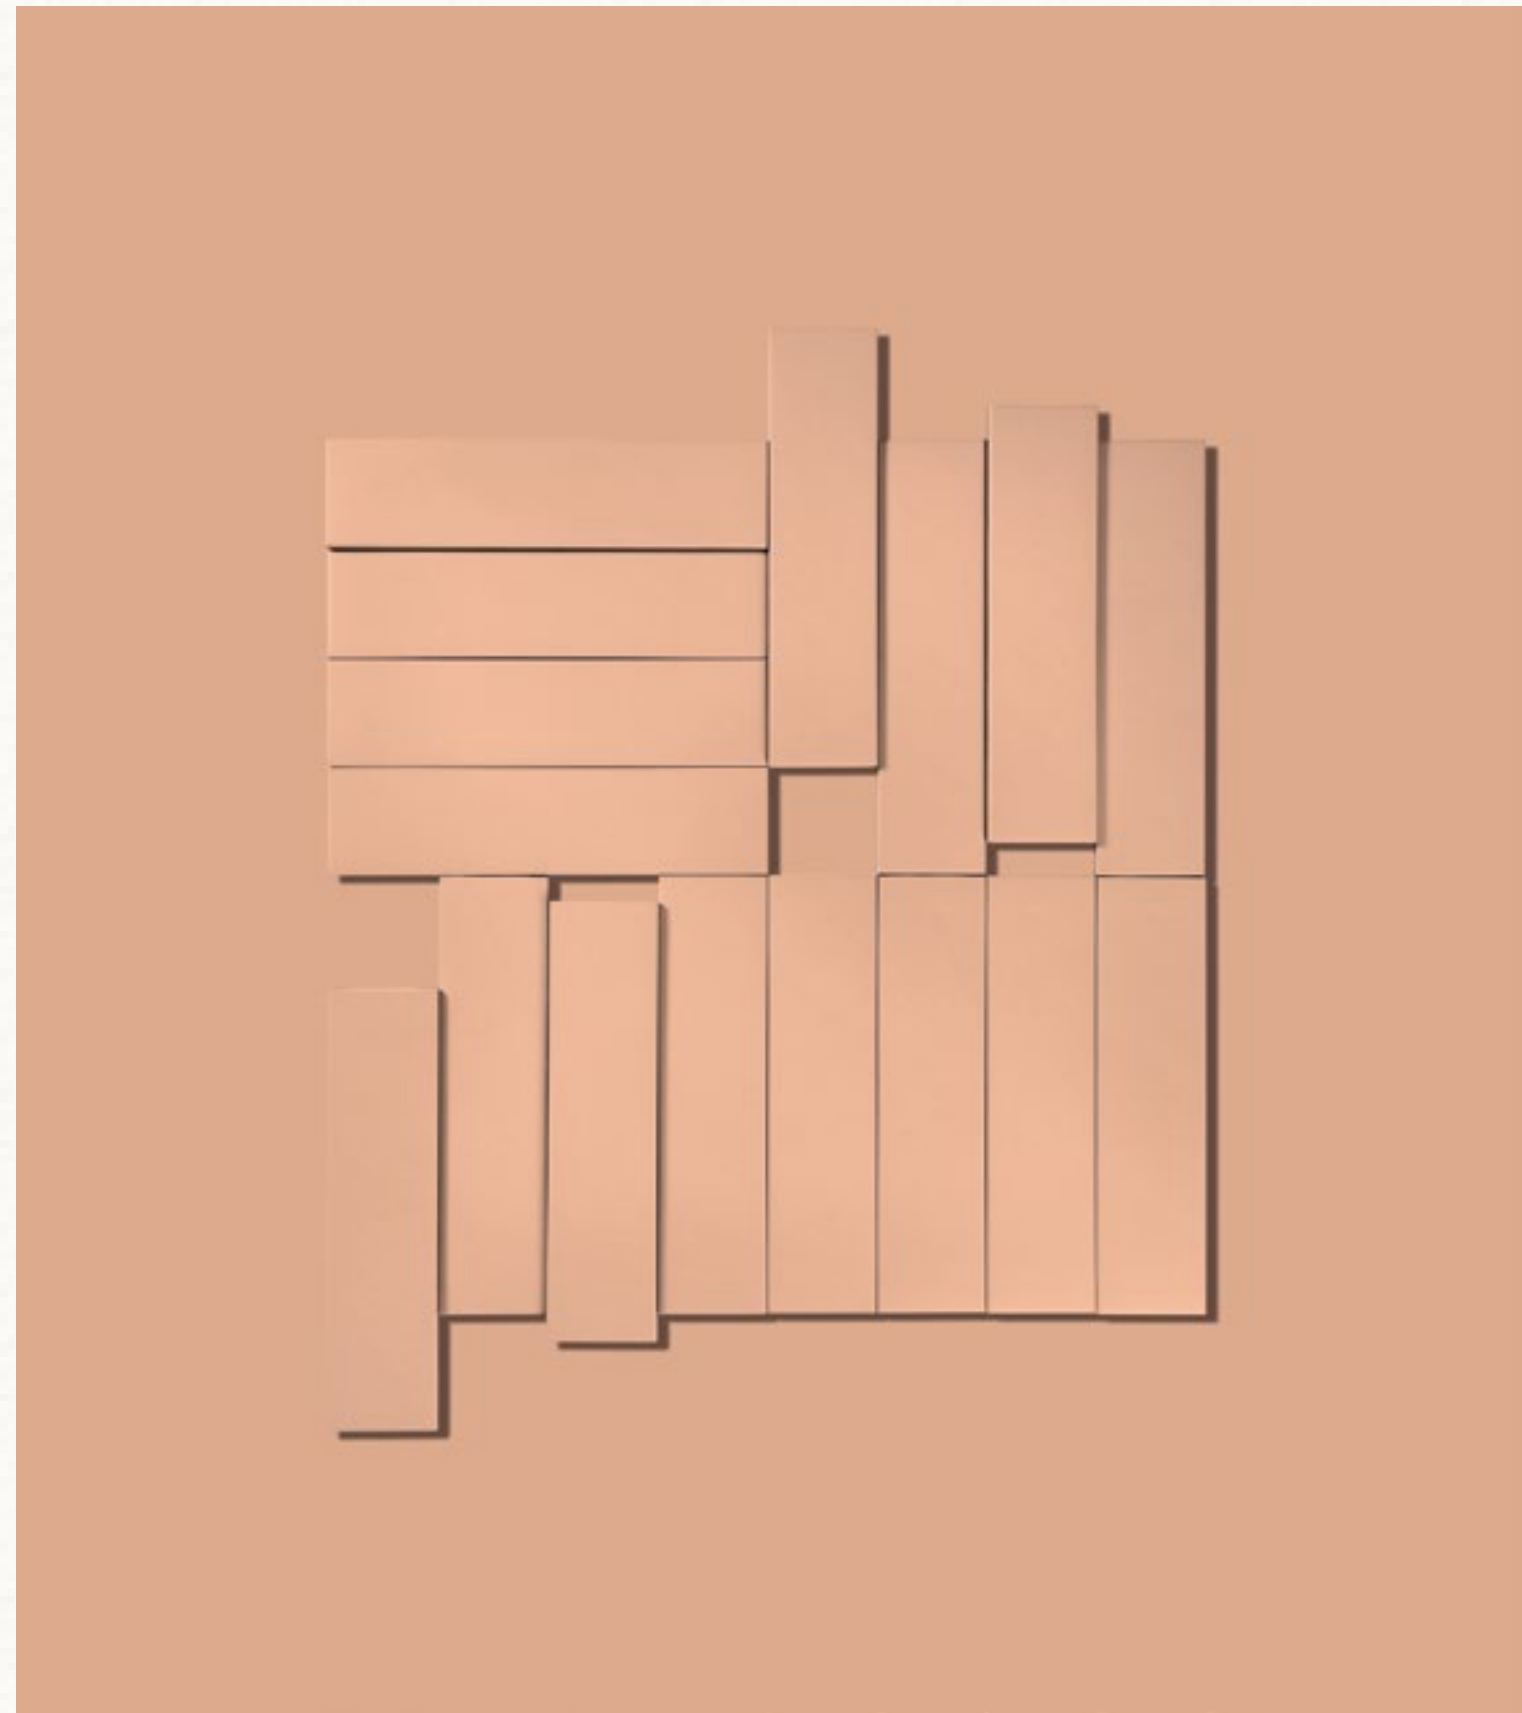

SOUL OF THE EARTH. TERRALMA.
